Children at-risk case management services is a set of interrelated activities for identifying, coordinating and reviewing the delivery of appropriate services for eligible at-risk children.

The purpose of case management services is to assist those targeted at-risk children in gaining access to needed medical, nutritional, social, educational, transportation, housing and other services; and to encourage the use of various community resources through referral to appropriate providers.

Case Management services will provide necessary coordination with providers of health, family support, employment, justice, housing, counseling, nutrition, social, educational, transportation and other services when needed.

The set of interrelated activities are as follows:
